Subject: RE: SSFL Interview Inquiry

Hi FX-6

Because of EPA's ongoing obligation to protect the privacy of the folks interviewed for the HSA at SSFL, I unfortunately cannot confirm that the person you are referring to was interviewed by EPA. However, I can tell you that ALL of my interviews, pre and post HSA, were included in the Interview Report either in transcript form (if audio-taped) or interview notes taken by me and/or EPA contractors. If you have not already reviewed the Interview Report, I highly recommend that you do... in it, you will see a figure listing the former work titles of the interviewees and the duration that each worked at SSFL. Towards the end of the report are notes and transcripts of all interviews. If you are still interested in confirming that FX-6 was interviewed by EPA and would like to confirm that notes or transcripts of an interview with him are in the report, I recommend that you contact FX-6 directly, and if FX-6 would like to talk to me, please tell him to contact me anytime. (I no longer have contact information for him.) I appreciate the work that you are doing and want to assist you to the extent possible. If you require assistance finding a copy of the HSA (the Interview Report is an appendix to the HSA Report), please contact my colleague Andy Bain here at EPA at 415-972-3167 by email at bain.andrew@epa.gov. Please feel to call me directly with any questions. My contact information is below.

Sincerely,
Andrew

Subject: SSFL Interview Inquiry

Dear Mr. Taylor,

You likely do not remember me. We met during EPA's HSA Employee Interviews at the Aerospace Contamination Museum of Education (ACME) several years ago.

I'm an advocate for former SSFL personnel seeking benefits under the Energy Employee Occupational Illness Compensation Program Act (EEOICPA). A fellow advocate remembered an interview you participated in with **FX-6 Personal**, which may have been conducted before the HSA and therefore not included in the final HSA compilation of employee interviews. It was suggested that **FX-6** recollections could be helpful in our efforts to clarify worker eligibility to the EEOICPA program.

Might you have recollection and/or access to the interview with **FX-6**?

Is it possible for me to review? Any assistance would be greatly appreciated.

Thank you for your time with my correspondence.

Sincerely,

FX-6
